

Shelbyville

Life's a journey, not a race.

This collection fits my favorite way to sew and make quilts—a little bit of this and a little bit of that. It's all about the mix of colors and prints, mixing the old with the new. Shelbyville is basics-and-blenders, fabrics that can stand on their own but whose best feature is how well the colors work with my past collections.

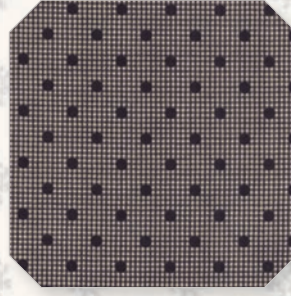

Inspired by antique quilts, fabrics, and blocks in my collection, Shelbyville makes it easy to make quilts and stitching projects more scrappy. It doesn't get any better than that!

Jo Morton
